Pune, Maharashtra | +91 8767528776 | kunalsharma9637@gmail.com | [Github](#) | [LinkedIn](#)

Summary:

Motivated and detail-oriented Computer Science Engineering student with a strong foundation in software development, data structures, algorithms, and web technologies. Passionate about building innovative solutions using technologies such as Java, MERN Stack, and Machine Learning.

ACADEMIC QUALIFICATION:

B. E IN COMPUTER ENGINEERING Vishwakarma University , Pune	2023- 2027
HSC IN SCIENCE YashwantRao Mohite College Pune	2021-2023
SSC IN SCIENCE Nalanda English Medium School Pune	2020-2021

TECHNICAL SKILLS:

- Programming Languages: Java, C, JavaScript
- Development: HTML, CSS, React.js, Node.js, Express.js
- Databases: Mongo DB , MYSQL
- Tools: Git, VS Code
- Concepts: OOP, DBMS, Data Structures

Projects:

1) Title – AI generated human detector on video call

- Developed an AI-powered application to detect AI-generated faces during live video calls.
- Applied computer vision techniques to analyze facial movements, blinking patterns, and visual inconsistencies.
- Improved detection accuracy through machine learning algorithms.
- Designed a real-time interface for enhanced user experience and authentication.

2) Title - Price drop watcher <https://price-drop-watcher.vercel.app/>

- Developed a full-stack Price Drop Watcher application using React.js, Node.js, Express.js, and MongoDB.
- Designed RESTful APIs for product management and user authentication.
- Implemented secure JWT-based authentication and authorization.
- Integrated MongoDB to efficiently store product and user information.
- Automated email notifications to alert users whenever product prices dropped.
- Used Git and GitHub for version control and collaborative development.

Certification :

- **IBM Full Stack Software Developer Professional Certificate — Coursera** Completed Oct 2025 | Verify: coursera.org/verify/professional-cert/AUH8K438K6GW
- Oracle Database SQL Certified Associate - HackerRank

Extra-Curricular

- Participated in organizing annual college technical and cultural events.
- Volunteered in Blood Donation Camp.
- Participated in Tree Plantation Drive.
- Represented the college in technical seminars and workshops.

ACHIEVEMENT

- Developed and deployed a full-stack MERN Price Drop Watcher application.
- Completed IBM Full Stack Software Developer Professional Certificate.
- Built multiple full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Actively learning Data Structures and Algorithms in JavaScript.
